ABOUT ME

Software Developer and Data Analyst, committed to building robust and scalable software solutions that drive data-based decision-making. My goal is to deliver technical excellence and strategic value in the software solutions I develop.

CAREER

Industrial Engineer (2019-2024)
Instituto Tecnológico Nacional de México (Campus, ITCM)

Science Computation Engineer (2017-2019)
Instituto Tecnológico Nacional de México (Campus, ITCM)

HISTORY

Logistics Analyst
VANSAT Jan 2024 - Sept 2024

- **Automation:** Utilized VBA in Excel to improve the efficiency of mechanical processes.
- **Dashboards:** Created dashboards and KPIs, enhancing visibility and reducing response times.
- **Database Maintenance:** Managed and optimized the database by eliminating errors and performing regular updates.

Data Analyst Jr. | Software Dev.
OIRACEL Jan - 2023 Dec - 2023

- **Dashboard Development:** Collaborated with various departments to design dashboards for decision-making and daily KPI monitoring, enhancing strategy and operational performance.
- **CRUD Creation:** Implemented with my team the design and development of a CRUD system using Express, JavaScript, and SQL, optimizing employee time tracking and management.

Software Developer | Data analyst
Feb. 2022 - Now

- **MPA Development:** Utilized React, Tailwind, and Express to build an application that allows my clients and me to log daily training data. The application provides performance analytics to improve training outcomes.
- **Data Analysis:** Analyzed historical data to support clients in decision-making and in planning/optimizing powerlifting training sessions.
- **ERP System Development:** Designed and implemented an ERP system to manage employees, track revenue and losses, and optimize data processing, integrating these with dashboards to enhance operational insights and performance.

COURSES

Full Stack - Web Developer
Instructor: Dr. Angela Yu
Platform: Udemy

Dive and Learn React
Instructor: Maximilian Schwarzmüller
Platform: Udemy

Google Data Analytics
Instructor: Google Career Certificates
Platform: Coursera

HARD SKILLS

- HTML
- CSS
- JS
- SQL
- Tailwind
- REACT
- NodeJs
- Express

SOFT SKILLS

- Analytical Thinking
- Continuous Learning
- Teamwork
- Continuous Improvement

LANGUAGE

- English
- Español (Native)
